Kenneth Dean Moreland

Computer Science and Mathematics Division, Visualization
Oak Ridge National Laboratory

https://www.kennethmoreland.com/
morelandkd@ornl.gov
(505) 440-6292 (cell)

October 1, 2026

Education

Doctor of Philosophy, Computer Science, University of New Mexico, July 2004
Master of Science, Computer Science, University of New Mexico, May 2000
Bachelor of Science, Computer Science, New Mexico Institute of Mining and Technology, May 1997
Bachelor of Science, Electrical Engineering, New Mexico Institute of Mining and Technology, May 1997

Employment

Oak Ridge National Laboratory (Oak Ridge, TN) 2021–Present

2026– Distinguished R&D Staff Member, Visualization, Computer Science and Mathematics Division
2021–2026 Senior Research Scientist, Visualization, Computer Science and Mathematics Division

Sandia National Laboratories (Albuquerque, NM) 1995–2021

2013–2021 Principal Member of Technical Staff, Scalable Analysis and Visualization
2004–2013 Senior Member of Technical Staff, Scalable Analysis and Visualization
2000–2004 Member of Technical Staff, Data Analysis and Visualization
1999–2000 Member of Technical Staff, Distributed Systems Research
1997–1999 Limited Term Employee, Computer Applications for Manufacturing
1995–1997 Student Intern, Mechanical Process Engineering

Research Experience

MAGNET-FDM 2025–Present

Leveraging the power of machine learning models for scientific visualization to expand the frontier of science and reduce the time to discovery.
DOE Office of Science ASCR Program
Role: PI
Funding: $1M/year

RAPIDS3 2025–Present

Work with DOE Office of Science application teams in addressing visualization challenges for science discovery.
DOE Office of Science SciDAC Program
Role: Key personnel
Funding: $1.5M/year

RAPIDS2 2021–2025

Work with DOE Office of Science application teams in addressing visualization challenges for science discovery.
DOE Office of Science SciDAC Program
Role: Key personnel
Funding: $1.5M/year

ECP/VTK-m 2017–2023

Updating scientific visualization algorithms in the VTK-m framework for efficient visualization on multi- and many-core processor devices.
DOE Office of Science Exascale Computing Project
Role: PI
Total funding: $9.7M

ATDM Scalable Visualization 2016–2021

Visualization support for mission-specific science applications for the Advanced Technology Development and Mitigation (ATDM) program.
DOE NNSA ASC Program
Role: PI
Funding: $800K/year

XVis: Visualization for the Extreme-Scale Scientific-Computation Ecosystem 2014–2017

Providing the foundational research for visualization software for scientific discovery with exascale computing. This work was foundational to start software projects like VTK-m and provide improvements to in situ libraries like Catalyst.
DOE Office of Science ASCR Program
Role: PI
Total funding: $4M

SciDAC Scalable Data Analysis and Visualization Institute 2013–2017

Provide technical solutions in the data management, analysis, and visualization regimes that are broadly applicable in the computational science community for the DOE Office of Science SciDAC program.
DOE Office of Science SciDAC Program
Role: Co-PI
Funding: $875K

Data Analysis at Extreme (Dax) 2010–2014

Creating a framework for visualization on exascale processors. Dax was one of the precursors to VTK-m.
DOE Office of Science ASCR Program
Role: PI
Total Funding: $1.5M

SciDAC Institute for Ultrascale Visualization 2006–2012

Addressed visualization challenges for the DOE Scientific Discovery through Advanced Computing effort.
DOE Office of Science SciDAC Program
Role: Co-PI
Funding: $900K

ParaView Development Lead 2006–2021

Lead the ASC funded development effort for ParaView, a large-scale general visualization solution. Today, ParaView is downloaded hundreds of thousands of times each year.
DOE NNSA ASC Program
Role: PI
Funding: $1.6M/year

Massive Graph Visualization 2005–2007

Explored techniques for visualizing providing information in large graph structures.
Sandia Laboratories LDRD Program
Role: PI
Funding: $1.4M

Scalable Rendering 1999–2005

Researched and developed parallel rendering codes targeted at performing scientific visualization on cluster computers. Software targeted for very large inputs and/or to very large displays.
DOE NNSA ASC Program
Role: Key personnel

Product Realization Environment 1996–1999

Developed and deployed a CORBA-based middleware tool for distributing and connecting scientific modeling and simulation codes.
DOE NNSA ASC Program
Role: Key personnel

Professional Activities

Professional Organizations

- Institute of Electrical and Electronic Engineers (IEEE): Senior Member since 2023, Member since 1995.
- Association for Computing Machinery (ACM): Member since 1998.

Editor

- Associate Editor, IEEE Transactions on Visualization and Computer Graphics (TVCG): 2022–2026.
- Guest Editor, Parallel Computing: 2019.

Steering Committee Member

- In Situ AI, Analysis and Visualization (ISAV): 2025, 2026.
- Workshop on In Situ Visualization (WOIV): 2018, 2021, 2022, 2023, 2024, 2025, 2026.
- IEEE Symposium on Large Data Analysis and Visualization (LDAV): 2020, 2021, 2022, 2023, 2024, 2025.
- In Situ Infrastructures for Enabling Extreme-scale Analysis and Visualization (ISAV): 2020, 2021, 2022, 2023, 2024.
- International Symposium on Visual Computing (ISVC): 2020, 2021, 2022.

Event Chair/Co-Chair

- IEEE Symposium on Large Data Analysis and Visualization (LDAV): 2018, 2019.
- In Situ Infrastructures for Enabling Extreme-scale Analysis and Visualization (ISAV): 2019.
- Scientific Visualization & Data Analytics Showcase, Supercomputing: 2018.
- VisLies: 2013, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024.

Program Chair/Co-Chair

- IEEE Symposium on Large Data Analysis and Visualization (LDAV): 2016, 2017.
- Eurographics Symposium on Parallel Graphics and Visualization (EGPGV): 2013.
- In Situ Infrastructures for Enabling Extreme-scale Analysis and Visualization (ISAV): 2017, 2018.

Program Committee Member

- International Conference for High Performance Computing, Networking, Storage, and Analysis (Supercomputing): 2012 (papers), 2013 (papers), 2023 (papers), 2025 (papers, tutorials, e-Posters), 2026 (papers, tutorials, e-Posters).
- EuroVis: 2016, 2017, 2018, 2021, 2022, 2023, 2025, 2026.
- HPC Asia: 2027.
- Conference on Computer Graphics, Interaction and Visualization Theory and Applications (GRIVAPP): 2027.
- IEEE VIS: 2023, 2024.
- Scientific Visualization & Data Analytics Showcase, Supercomputing: 2017, 2023.
- International Conference on Information Visualization Theory and Applications (IVAPP): 2022, 2023.
- International Symposium on Visual Computing (ISVC): 2013, 2014, 2019, 2020, 2021, 2022, 2023.
- IEEE VIS Short Papers: 2022.
- IEEE Scientific Visualization: 2014, 2015, 2016, 2017, 2019, 2020, 2021.
- Eurographics Symposium on Parallel Graphics and Visualization (EGPGV): 2009, 2010, 2011, 2012, 2013, 2015, 2016, 2017, 2019, 2020, 2021.
- IEEE Cluster: 2015, 2016, 2021.
- IEEE TPDS special section on Innovative R&D toward the Exascale Era: 2021.
- VisGap: 2020.
- Symposium on Visualization: 2017.
- Visualization in High Performance Computing: 2015.

- Large Data Analysis and Visualization (LDAV): 2011, 2013, 2014.
- Ultrascale Visualization: 2013, 2014.
- Big Data Analytics: Challenges and Opportunities: 2012, 2013.
- Visualization Infrastructure & Systems Technology: 2014.

Seminar Invitations

- Schloss Dagstuhl: In Situ Visualization for Computational Science (Seminar 18271).
- NII Shonan Meeting: The Moving Target of Visualization Software for an Ever More Complex World (Seminar 145), The Moving Target of Visualization Software - Closing the Gap between Research and Application (Seminar 193).

Review Panels

- DOE SBIR Phase I: 2010, 2011, 2023.
- NSF HCC/III Divisions: 2026.
- NSF IIS Division: 2012, 2014, 2015, 2016, 2018.
- DOE SBIR Phase II: 2012, 2014.
- DOE ECRP: 2009, 2013.
- DOE ASCR: 2009, 2010, 2011, 2013.

Miscellaneous

- HPSF Technical Advisory Committee member: 2025–Present.
- Best Reviewer Award: EuroVis 2022.
- VIS Doctoral Colloquium Panelist: 2017.

Software Artifacts

The following is selected software I contributed to over (either as a developer or a project manager) the course of my career.

ParaView A parallel scientific visualization application.

Catalyst An *in situ* visualization library built on top of the ParaView application.

VTK A visualization library on which many tools, including ParaView, are built on top of.

Viskores A library of visualization algorithms designed to run on multi- and many-core processors such as GPUs.

IceT A parallel rendering library.

VTK-m The predecessor of Viskores.

Dax A predecessor of VTK-m.
